# Forward Looking Statements

TSX.V: PRG OTCQB: PREIF

Certain information regarding the Company contained herein may constitute forward-looking statements within the meaning of applicable securities laws. Forward-looking statements may include estimates, plans, expectations, opinions, forecasts, projections, guidance or other statements that are not statements of fact. Although the Company believes that the expectations reflected in such forward-looking statements are reasonable, it can give no assurance that such expectations will prove to have been correct. The Company cautions that actual performance will be affected by a number of factors, many of which are beyond the Company's control, and that future events and results may vary substantially and materially from what the Company currently foresees.

This presentation does not constitute or form part of any offer for sale or solicitation of any offer to buy or subscribe for any securities in Precipitate Gold Corp., nor shall it or any part of it form the basis of or be relied on in connection with or act as any inducement to enter into any contract or commitment whatsoever. No reliance may be placed for any purpose whatsoever on the information or opinions contained in this presentation or on any other document or oral statement or on the completeness accuracy or fairness of any such information and/or opinions. No undertaking, representation, warranty or other assurance express or implied is made or given by or on behalf of Precipitate Gold Corp. or any of its directors, employees or advisors, as to the accuracy or completeness of the information or opinions contained in this presentation and, save in the case of fraud, no responsibility or liability is accepted by any of them for any such information or opinions or for any errors, omissions, misstatements, negligence or otherwise contained or referred to in this presentation. The contents of this presentation have not been approved by an authorized person.

## 12 Month Trading Chart - PRG.V

# Directors & Management

TSX.V: PRG OTCQB: PREIF

## Jeffrey Wilson

President & CEO, Director

30 years experience in mining sector. Background in IR and finance.

**Welcome Opportunities** purchased by **Endeavour Mining 2002**. **Aquiline Resources** bought by **Pan American Silver**. **Silver Quest Res.** bought by **New Gold in 2012 for a value of \$130.0M**. Current Director of multiple resource-focused public companies

## Alistair Waddell

Director

Exploration Geologist, Partner at the **NewQuest Capital Group** and President and CEO of **Inflection Resources**.

A founder of **GoldQuest Mining Corp.** and former VP Greenfields Exploration at **Kinross**. Current Director of multiple resource-focused public companies.

## Lon Shaver

Director

President **Silvercorp Mining (+1 billion market capitalization)**

Former Investment Banker at **Raymond James**

Current Director of multiple resource-focused public companies

## Michael Moore

VP Exploration

**Exploration Geologist** with 30 years experience, Gold, Silver, Base Metal and Green-space Metals Exploration. Canada, USA, Africa and Latin America. Current Director of multiple resource-focused public companies

## Mr. Mejico Angeles-Lithgow

Advisor

Dominican National. Formerly **President and Executive Director of the Barrick-Pueblo Viejo mining operation**, which is the single largest investment in the country's economic history.

# Dominican Republic Assets

TSX.V: PRG OTCQB: PREIF

- Located just 1,500km from continental USA
- Mining friendly. DR exported approximately \$1.5 billion worth of gold in 2022.
- DR is the largest and most stable economy in Central America & the Caribbean

# Juan de Herrera Tireo Formation Rocks

## 2025 MULTIPLE NEW TARGETS DELINEATED

- **8 new priority zones** of elevated gold and base metals (copper, lead and zinc) in soil anomalies
- Prioritized 4 zones for up exploration, **Southeast, Centro, Jengibre South, and CN**
- Targets identified via the collection of 17,000+ soil samples on 25m x 50m spacings. Over 14,000 of these soil samples were previously analyzed with a hand-held XRF which led to the identification of **~ 8,000 samples showing elevated base metal and pathfinder elements**, therefore warranting full laboratory analysis.
- More than **7,000 soil samples in storage for possible near future laboratory analyses**, collected from various project areas, some with minor exploration history.

# Juan de Herrera Regional Gold-in-Soil

Project wide Gold-in-Soil Samples

Red circles > 80 percentile values

Additional Soil Samples Pending Laboratory Results

Regions with additional soils in storage for potential future analyses

# District Scale Potential

TSX.V: PRG OTCQB: PREIF

## HIGH GRADE GOLD AND COPPER The Tireo Formation

- Host to the multi-million ounce Romero Au-Cu deposit
- Striking more than 60km NW-SE, through GoldQuest & Precipitate Projects
- Tireo volcanics rocks, a highly mineralized belt with values up to 73.8 g/t Au and 34.0% Cu\*
- Largely underexplored.
  - *High grade rock grab samples are selective by nature and are unlikely to represent average grades on the property.*

# Juan de Herrera Regional Magnetics

TSX.V: PRG OTCQB: PREIF

**Exceptional Project-wide  
Airborne Magnetics Geophysical Coverage**

**Identifying Tiroo Formation Volcanics,  
the preferred host rocks for  
Gold and Copper mineralization.**

# IP Chargeability Tيرةo Camp Comparison

Romero, GoldQuest

Cachimbo, GoldQuest

**Induce Polarization (IP) Geophysics  
A Critical Tool of Drill Targeting**

**Important Correlation between  
Chargeability Highs and  
Mineral Discovery Success**

Candelones, Unigold

# Juan de Herrera IP Chargeability

TSX.V: PRG OTCQB: PREIF

- Induce Polarization Geophysics - A Critical Tool of Drill Targeting
- Chargeability Anomalies in Tiroo Volcanics - With Surface Geochemical Anomalies = Priority Drill Targets
- 2025 Infill & Expansion IP Surveying is Ongoing

# IP Geophysical Surveying 2025

TSX.V: PRG OTCQB: PREIF

# Juan de Herrera CN Zone Highlights

TSX.V: PRG OTCQB: PREIF

## CN ZONE SAMPLE HIGHLIGHTS

- High grade rock grab samples yielded values of:  
**73.8 g/t gold, 34.9 g/t gold, 11.7 g/t gold, 8.7 g/t gold \***  
**Trench 3: 32.2 g/t gold, 286.0 g/t silver over 5.1m**
- More representative outcrop grab samples yielding values ranging from 2.2 to 6.3 g/t gold
- Sampling has demarked an area measuring 700m (north-south) by up to 300m (east-west).

\* Rock grab samples are selective by nature and are unlikely to represent average grades on the property.

## CN ZONE TRENCH SAMPLING HIGHLIGHTS

## Hand trenches returning highlight results:

- **Trench 15:** **6.4 g/t gold, 6.5 g/t silver over 1.0m**
  - **Trench 11:** **4.6 g/t gold, 6.1 g/t silver over 0.6m**
  - **Trench 10:** nil Au. Poorly exposed structure zone
  - **Trench 9:** **7.2 g/t gold, 5.0 g/t silver over 2.0m,**  
within 3.9 g/t Au, 4.2 g/t Ag over 5.0m
  - **Trench 8:** nil Au. Poorly exposed structure zone
  - **Trench 7:** **4.3 g/t gold over 0.6m** (off-trend and  
down slope from main structure)
  - **Trench 5:** **83.6 g/t gold, 29.0 g/t silver over 1.0m**
  - **Trench 4:** 0.2 g/t gold, 2.1 g/t silver over 1.0m
  - **Trench 3:** **32.2 g/t gold, 286.0 g/t silver over 5.1m**
  - **Trench 2:** 1.5 g/t gold, 12.6 g/t silver over 3.0m
  - **Trench 1:** 1.0 g/t gold, 8.8 g/t silver over 4.0m
- 
- The structure has a current **strike length of over 285 metres** and is open to the south at an offset
  - The gold-in-soil anomaly is **an estimated area measuring about 700 metres (north-south) by up to 300 metres (east-west)**. Soils are affected by down slope dispersion to the southwest.

# Pueblo Grande, General Map

TSX.V: PRG OTCQB: PREIF

## STRATEGIC LAND POSITION – owned 100%

Land package surrounds Barrick's Tier 1 Pueblo Viejo mining operation.

Barrick spent US\$7.0 million in exploration, paid US\$5.0 million in a cash payment as part of an agreement amendment, and granted a 3% NSR on ground now comprising a portion of the Pueblo Viejo mining licenses.

Recent 5-year exploration program completed by Barrick Gold exploration included extensive surface mapping, geochemical sampling, geophysical surveying, and drilling (totalling 22 holes ~6,000 metres) within the two major target areas.

**Data compilation and assessment ongoing for future exploration.**

**Prospective and strategic land package along with 3% NSR on portion of adjacent Pueblo Viejo mining licenses offers unique leverage opportunity.**

## Dominican Republic Assets Provide Strategic Optionality

### Juan de Herrera Project (owned 100%)

- Strategically located adjacent to Goldquest Mining's Romero Project
- Multiple new geochemical Anomalies Identified late 2024, early 2025
- Expanded and more detailed IP geophysical surveying July and August 2025
- Multiple Advanced and Highly Prospective Drill Targets; Many with Drill Permits.

### Ponton Project (owned 100%)

- Coincidental Geochemical and Geophysical anomalies
- Significant Epithermal Target Area Warranting Ongoing Advancement Toward Drilling. Drill ready and drill permitted

### Pueblo Grande Project (owned 100%)

- Recent 5-year exploration program completed by Barrick Gold
- Expenditures exceeding US\$7.0 million
- Surface mapping, geochemical sampling, geophysical surveying, and drilling (totalling 22 holes, ~6,000 metres) within the two major target areas
- Data compilation and assessment ongoing for future exploration.
