## Precipitate Announces Appointment of José Acebal to Board of Directors

*Vancouver, B.C. – January 19, 2026* – **Precipitate Gold Corp.** (the “**Company**” or “**Precipitate**”) (TSXV: PRG, OTCQB: PREIF) is pleased to announce the appointment of José Acebal to the Company’s Board of Directors.

José Acebal is a Dominican national and a finance-trained investor and owner-operator with extensive experience across industrial operations, infrastructure development, and extractive industries in the Dominican Republic. He owns and operates multiple real-asset businesses, including Parque Industrial Carelia—engaged in aggregate production and dredging activities—as well as Tavares Industrial, a concrete and aggregates producer serving the Santo Domingo region. Through these enterprises, Mr. Acebal has built hands-on expertise in permitting, logistics, operational execution, and regulatory engagement within mining- and materials-based industries. In addition to his operating background, Mr. Acebal brings institutional capital markets and governance experience. He began his career at Goldman Sachs in the Debt Capital Markets group covering Latin America, where he gained exposure to structured finance, credit markets, and investor relations. He has since served on the boards of several diversified and infrastructure-oriented businesses, including Petromovil (fuel distribution), Panorama Jets (aviation services), and Consorcio Pelicano, a diversified family holding company.

Mr. Acebal holds a Bachelor of Science in Finance from Bentley University and is fluent in Spanish and English. He offers valuable insight into local operating environments, stakeholder engagement, and capital allocation strategies for mining and natural resource companies operating in the Dominican Republic and across the Caribbean.

Jeffrey Wilson, President & CEO stated, “We are very pleased to welcome José to Precipitate’s Board of Directors. Mr. Acebal brings a rare and highly valuable combination of international capital markets experience and hands-on operational expertise in mineral extraction, industrial, and infrastructure businesses within the Dominican Republic. His deep understanding of permitting, logistics, regulatory engagement, and local community and business dynamics—together with his background in finance and governance—will be an important asset as we continue advancing our mineral properties within the Dominican Republic and strengthening our in-country relationships. We believe his insight, perspective, and network will meaningfully enhance our strategic decision-making as we move toward the next phase of growth through our ongoing exploration.”
